SUMMARY

Creative and detail-oriented Software Developer with a strong passion for designing intuitive user interfaces and developing engaging front-end solutions. Dedicated to building user-friendly, visually appealing, and high-performing applications that deliver seamless digital experiences.

WORK EXPERIENCE

Theydreamer
Software Developer

June 2025 - February 2026

- Developed and optimized scalable software features that improved overall system performance and reliability.
- Performed manual and automated testing to ensure system functionality and identify defects.
- Collaborated with cross-functional teams to streamline project workflows and enhance development efficiency.

Gleent Incorp
Software QA Engineer (Intern)

September 2024 - December 2024

- Performed manual testing for role-based access control and payroll systems to ensure functional accuracy and security compliance
- Designed and executed structured test cases and test scripts to validate system behavior
- Documented test results, bug reports, and reproduction steps clearly for development review
- Collaborated with developers to identify, analyze, and resolve system defects efficiently

SOFTWARE PROJECTS

Magtanim Ay Di Biro (Android Mobile App)

- An educational farm game developed for elementary students, where users can plant crops, recycle items, and sell harvested produce to learn basic environmental awareness and resource management.

Taskify: Productivity Assistance

- Utilized Reactjs/Tailwind for front-end development, ensuring seamless user interactions.
- Developed a responsive web application for Task Management, focusing on user-friendly navigation.

TECHNICAL SKILLS

- Frontend:** React, SvelteKit, Tailwind CSS, HTML5, TypeScript, JavaScript
- Backend:** Node.js, GIN web Framework
- Mobile:** React Native Expo
- Database:** PostgreSQL
- Tools:** Figma, Git, GitHub, Jira, Planka, Wekan
- Testing:** Playright, POSTMAN

EDUCATION

Laguna State Polytechnic University San Pablo Campus,
BS in Computer Science - Major in Intelligent System

2021 – 2025

HONORS & INVOLVEMENT

- **Most Outstanding in Mathematics** - Science, Technology, Engineering, and Mathematics (STEM), Liceo de Bay (2020)

CERTIFICATION

15th EdukCircle International Convention on Engineering and Computer Technology **December 2023**

University of the Philippines, Quezon City, Philippines

- Gained insights into the latest trends and innovations in engineering and computer technology through talks led by industry professionals and academic experts

Unlocking Capstone Projects: Crafting Capstone Titles, Agile Scrum Methodology, and Testing Protocols **February 2024**

Laguna State Polytechnic University - San Pablo City Campus (LSPU-SPCC)

- Attended a focused webinar on effectively formulating capstone project titles, applying Agile Scrum methodologies, and implementing software testing protocols for project development

CCS Learn Fest 2023 - Exploring the Frontiers of Information Technology and Computer Science **May 2023**

Laguna State Polytechnic University - San Pablo City Campus (LSPU-SPCC)

- Engaged in seminar and activities highlighting emerging trends, innovations, and applications in information technology and computer science

SEMINARS & CERTIFICATION

- Participation for AppCon
